

# Australia-Africa Education Partnerships for Development

## AAUN Forum and AGM 4-6 September 2017

*(Final Program at 1 September 2017)*

**Venue: The University Club of Western Australia**  
Hackett Entrance 1, Hackett Drive Crawley, Western Australia, 6009

### OBJECTIVES AND OUTCOMES

#### Purpose

Assess education and research partnerships for development, engagement of stakeholders, and building sustainable research and exchange programs for the AAUN Strategic Plan 2017-20, maximizing Australia Africa advantages.

#### Focus

We invite the advice and experience of all attending from government, academia, agencies and business in shaping AAUN capacity and impact for the future. In our first 5 years we have established a platform and delivered results. Now we need to build greater effectiveness, opportunity, and sustainable resources.

**(i) EDUCATION** – In September 2017 DFAT has invited **African Ministers of Education**, presenting a significant opportunity. Please note the incorporation of the Ministers in the program for AAUN on 4 September, flowing in to the [ADU Research Forum](#) on 5 September and the Africa Down Under Conference 6-8 September (see details below).

**(ii) POLICY** – The UN Sustainable Development Goals, UN Climate Accords, China Belt and Road Approach, Australian and African international policy objectives are highly relevant to AAUN. They provide a policy framework with mutual benefit to Africa and Australia, shaping research, education and economic development. They should also provide resources to implement partnerships and programs.

**(iii) RESEARCH** – We will review our progress and results from the 30 seed-funded programs that we have invested in since our launch 5 years ago at DFAT Canberra in 2012; and select the successful ones to build further with appropriate new initiatives. We will strengthen our partnerships with our sponsors, especially DFAT and ACIAR, and seek additional international resources and funding.

**(iv) HIGHER EDUCATION** – We can review and extend our research and mobility programs and interactions with expert exchange, the Australia Awards, international needs and opportunities. Some of our members have highlighted the needs for institutional development, graduate employment and more effort towards linked courses and degrees.

#### Structure

Each session has 1-2 opening speakers, 3-4 commentators, panelists and expert discussants. Chairs and speakers please keep strictly to times shown. Discussion time for consensus and practical outcomes is a vital part of the workshop.

#### Outcomes

Important to the success of the Forum, we will develop a communique or position paper for policy makers in Australia and Africa, with copy to relevant international governments and agencies. Several research programs are likely to arise from the discussions. We will also engage with media and websites in communicating the outcomes of the meetings.
